Active Lives
Children and Young People

Teacher
Questionnaire Summary
Summer term 2019-20
**Introduction**

This document has been created to summarise the content of the Active Lives Children and Young People questionnaire for teachers. Only one teacher per school needs to complete the questionnaire.

The teacher survey provides context for pupils’ responses and reduces the need to ask children questions that can be answered once by a teacher, e.g. questions that are common to the school.

Responses from the teacher survey are also used in the school report so if it is not completed there will be missing information in the school report. It is therefore also important that the teachers enter the correct URN to make sure that their responses are associated with the right school.

Additional information is highlighted in *green text.*

**Homepage**

On entering the URL, teachers will see the following screen. Teachers can access the survey at a later date using the URN provided.

They should select ‘Next’ to continue.
