Active Lives Children and Young People Survey: Teacher Master Questionnaire Year 3: 2019/20

Notes on the questionnaire:

This document is one of three questionnaire documents for the Year 3 survey. This document covers the questionnaire for teachers.

The other two documents are:

- Years 1-2 children (a) (in PowerPoint)
- Year 3-11 and parent questionnaire

To differentiate the question names between the versions for pupils and parents and teachers, we have used the suffixe **e** for the teacher questionnaire.

The sample will provide details on school type:

Primary
Secondary
Any other school type (Other)

The classification is based on the combinations of school years in the school in the previous year's Edubase

Primary= state schools with year 1-2 only, year 3-6 only, year 1-6 only
Secondary = state schools with year 7-11 only
Any other school type (other) = independent schools, state schools containing primary and secondary years or any unusual combinations within primary and secondary

This determines which year groups are asked about at the initial question.

In the questionnaire we have specified when specific answer codes need to be included for specific phases (determined by the year groups actually reported by the teacher). If nothing is specified, then the code is to be included for all schools.

In the following instructions to programmer and question names are in RED

Single- vs Multi-code questions

- o Single-code questions permit only one answer. These include the instruction to the respondent to tick one box only.
- o Multi-code questions permit more than one answer, and these include the instruction to the respondent to tick all the boxes that apply.

Due to the coronavirus pandemic and school sites being closed to most pupils in the summer term 2020, the questionnaire was adapted to be suitable for home completion. Any adaptations for the summer term 2020 are highlighted in *purple text*. Adaptations for summer term 2020 are also noted with use of [Sum:].

How to start the online interviews: URLs

Within each school one teacher is asked to take part in the survey. A unique URL was provided for the teacher in each school. Teachers entered the URL and started the survey after entering the unique reference number (URN) for their school.

INTRO_E

We are doing a survey with pupils in your school about participation in leisure and recreational activities (including sport and physical activity). It is being conducted on behalf of Sport England, the Department for Education, the Department of Health and Social Care and the Department for Digital, Culture, Media and Sport by Ipsos MORI, an independent social research organisation. We would like to ask you a few questions about opportunities for sport and exercise at the school to supplement the information we have collected from pupils and provide the school context for the pupil responses.

[*Sum*: This is an ongoing survey which has been carried out for the last three years. At the moment the situation is unusual with many schools closed. We understand that the situation in your school may be different from how it normally is. The survey is continuing because it is important for Sport England to understand children and young people's participation in sport and physical activity and their attitudes and wellbeing during the coronavirus epidemic when most pupils are not at school.

However, for the school level data provided by teachers we would like to know about the usual situation. Gathering this information is important for providing context on topics such as school facilities, healthy eating and active travel. Please answer the questions about the situation in your school as it was during the first part of the spring term or as it would have been during the summer term in normal circumstances.]

URN QUESTION

Please enter your school's unique reference number (URN) which was provided by your Active Partnership along with the link to this questionnaire.

Entering the URN allows you to re-enter the survey if you have to close it before finishing and your previous answers will have been saved.

ENTER URN

Can we check, is this your school: [TEXT FILL SCHOOL NAME IN]?

Yes

No - you will be asked to enter your unique reference number again **[route back to URN QUESTION]**
